I. FIFTH FORMS

COUNTIES AND DISTRICTS

Establishment

1. A Board which maintains a Fifth Form in accordance with the following regulations shall be entitled to its share in the special Legislative Grant to Fifth Forms in addition to its share in the General and the other Special Legislative Grants to Public and Separate Schools:

(1) No grant shall be paid to a Fifth Form located in an urban municipality which maintains a High or a Continuation School.

(2) The subjects of study shall be those prescribed for Form V in the Course of Study for Public and Separate Schools.

(3) (a) There shall be at least an average daily attendance of two pupils who have been admitted in accordance with the provisions for admission to the High Schools.

(b) Pupils who are competent to take up the work may also be admitted to a Fifth Form on the report of the Principal, approved by the Inspector; but the attendance of such pupils shall not be counted in making up the prescribed average.

Staffs

2.—(1) The teacher shall hold at least a Provincial Second Class certificate.

(2) A teacher who was qualified for a Fifth Form under the Regulations of 1907 shall remain qualified under the same Board for the Fifth Form in which he was then teaching.

(3) Before appointing a teacher, Boards should consult the Inspector in order that all the necessary subjects of study may be adequately provided for.

Equipment

3.—(1) Special Equipment shall have been provided of the following minimum values:

Library, \$80; Scientific apparatus, \$80; Maps and Charts, \$20; Art Models and Supplies, \$20.

(2) The equipment for a Fifth Form shall be for the special needs of such Form and shall be approved from time to time by the Inspector.

(3) (a) Of the foregoing equipment, the minimum value of the Maps and Charts and the Art Models and supplies and at least 25 per cent. of the minimum value of the Library and Scientific Apparatus shall be provided before the Fifth Form may share in the Legislative Grant. Each year after the first year, at least 25 per cent. additional of the minimum value of the Library and Scientific Apparatus shall be provided until the minimum value is reached.

NOTE.—In the case of schools where Fifth Forms are being newly established, the apparatus for Physiography, Botany, Zoology, and Art need not be provided during the first year for such of these subjects as are not being taken during that year.

(b) When, however, the pupils are preparing for examinations prescribed by the Department in Art, Physiography, Botany, Zoology, or Agriculture, such equipment as is needed for the courses therein shall be provided after due notice by the Inspector concerned; unless such provision has been made satisfactory to the Inspector, candidates from the school will not be admitted to any of the Departmental examinations concerned.

(4) From year to year, Boards shall expend on equipment such further sums as may be required by the Minister, on the report of the Inspector.

NOTES 1.—At least one locked press or cabinet should be provided to contain the books and the apparatus. The chemicals should be kept in a separate press. For the safekeeping of all the equipment, the Board should hold the principal responsible; and, on a change of principal, it should investigate the condition of the equipment.

2.—The special equipment shall be entered under suitable heads in the catalogue separately from the ordinary equipment, which latter shall not be included in computing the grant for the Fifth Form. The catalogue and the invoices of new equipment shall be inspected at each visit by the Inspector concerned. The invoices shall be kept on file at the school. The various items of the equipment shall also be valued by the Inspector as often as may be rendered necessary by the condition of the said items.

3.—As the Legislative Grant is paid only upon items of equipment approved by the Inspector, Boards of Trustees should submit for his approval a list of proposed purchases.

No grants will be paid to either Boards or teachers unless this report is sent in.

(b) The pupils shall keep records systematically in special agricultural note books or garden journals of the instruction given and the practical work carried on in their school and home gardens. These records shall be submitted for the approval of the Inspector.

(5) The accounts for the work in Agriculture shall be kept separately from the general school expenditure, and a financial statement shall be submitted, on the special form provided by the Department, by the Secretary to the Minister through the Public or Separate School Inspector at the end of the school year in June. The totals of the receipts and expenditures shall, however, also be included in the General Financial Statement of the Board to the Department of Education.
